Summary of Benefits to the Jews In the Time of Caesar

The following outline summarizes the substance of those decrees and other source documents that are either cited or quoted in full by Josephus, (*Antiquities*, 14.190-264 [14.10.2-25]). For each topic that occurs within one of the above documents I have attempted to locate places where the same topic occurs elsewhere and to bring these together in what amounts to a rough sort of thematic index. Nineteen topics are listed below. They are arranged in alphabetical order and numbered consecutively for ease of reference.
